BOARD OF ALDERMEN

OF

JERSEY CITY.

1885-1886.

Pursuant to the provisions of the City Charter, the Board of Aldermen of Jersey City met at the Aldermanic Chamber, City Hall, on Tuesday, May 5, 1885, the first Tuesday after the first Monday in May.

The Board was called to order by the City Clerk at 8:25 o'clock p. m.

The roll was called and the following named Aldermen answered to their names and took their seats:

First Aldermanic District—Robert Davis and Robert S. Jordan.

Second Aldermanic District—Michael J O'Rourke and Dennis Reardon.

Third Aldermanic District—Frederick Hauser and William J. McAlvanah.

Fourth Aldermanic District—Ferdinand Dziuba and Walter H. Elliott.

Fifth Aldermanic District—Thomas V. Cator.

Sixth Aldermanic District—Pearl C. Hilliard and James Reid.

Absent—Alderman Joseph Jewkes, from the Fifth Aldermanic District.

On motion of Alderman Reardon, Alderman O'Rourke was appointed President pro tempore.

The Board then proceeded to the election of a President for the ensuing year.

Alderman Jordan was nominated by Alderman Reardon.

A balloting was had, which resulted as follows: Aldermen Davis and Hilliard were appointed and acted as tellers:

Alderman Jordan received nine (9) votes. One blank was cast.

Whereupon Alderman Jordan, having received the requisite number of votes, was declared elected President of the Board for the ensuing year.

Aldermen Hilliard and Davis were appointed a committee to conduct the President to the chair.

The committee performed its duty and the President briefly addressed the Board in acknowledgment of the honor conferred.

On motion of Alderman Reardon, the Board proceeded to the appointment of City Clerk.

John E. Scott was nominated by Alderman Reardon.

On motion of Alderman Reid, the President of the Board was authorized to deposit for the Board the ballot for John E. Scott for City Clerk. Aldermen Reid and Reardon acted as tellers.

Thereupon the President deposited for all the members one ballot for John E. Scott for City Clerk, and John E. Scott was declared appointed City Clerk.

The annual message of His Honor the Mayor was presented, read, received and the following resolution in relation thereto was presented by Alderman Reardon:

Resolved, That the message from the Mayor be received, printed in the minutes and one thousand copies printed in pamphlet form under the direction of the Committee on Printing, Stationery and Supplies, when appointed.

Alderman Reid moved, as an amendment, to insert the words "and five hundred copies in the German language."

The amendment was accepted and the resolution was then adopted.

EXECUTIVE DEPARTMENT.
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, May 5, 1885.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—A review of the official year just closed may be useful to you and interesting to the public and is herewith presented with such suggestions for the future as occur to me:

FINANCES

The city's credit has continuously advanced. The floating debt was funded and all our out-

standing bonds are now sought by investors As a result, when it has been necessary to effect temporary loans in anticipation of taxes, we have easily secured money at 5 per cent., a thing unheard of for many years with us. There has never been a time during the year that the city's employees or creditors have been asked to wait. The collections of taxes, current and is arrear, have exceeded the tax levy, and there is no danger of financial retrogression. If we only hold our own, as it is evident we can, the natural growth of the city, increasing its taxable value, will make our debt burden relatively lighter year by year. The following figures tell their own story:

The net amount required to be raised for the tax levy of 1883, was	$2,065,382 36
For 1884	1,903,465 57
There was collected in the year from May 1, 1883, to May 1, 1884, of taxes, assessments and arrears	2,029,531 36
While in the year from May 1, 1884, to May 1, 1885, there was collected of taxes, assessments and arrears	2,248,227 40

Thus it appears that in the year first named our collections were $35,851 less than the tax levy for that year, and that in the year just closed our collections were $344,761 83 more than the levy for that year.

During the year from April 1, 1883, to April 1, 1884, there was collected of water rents $473,297 48, while from April 1, 1884, to April 1, 1885, there was collected of water rents $493,994 20, a gain of over $20,000. Both years the water revenue exceeded the expenses.

TAXATION.

In this direction there is improvement and a general tendency towards equalization, but the net result is far from satisfactory. In my message of last year I discussed the subject of taxation at considerable length, and will not reiterate here the views then expresssed. Copies of that message can be procured at the City Clerk's office. I can only say that experience has confirmed and strengthened my convictions as then made known. I am convinced that our system of assessment by districts is wrong, as is also the custom of crowding the whole of the vast labor of valuation into a few months in the summer. There should be a permanent Board of Assessors with a clerical force and an office of their own. The members should give their entire time to the work and act unitedly, compiling their data during the autumn and winter, making public an experimental valuation early in May, and closing their books after, and not before, those who sit in appeal shall have acted. It is to be regretted that a bill looking to this end, which was introduced in the last Legislature, failed of enactment. To recur to what has been gained, however, I will mention the following:

The sum which the city will receive from the Railroad Tax law of 1884 exceeds our anticipation. It will be $215,537 79, some of which has already been paid to the State for us, and will eventually reach our own treasury. The residue is contested and we must await the decision of the courts. In addition to this there is a probability of the city's sustaining local taxation on the grain elevators and other property which was returned by the railroad companies as only taxable under the law of 1884, and, for precaution, included by the State Assessors.

Valuations on water front and other property have been greatly increased by the Board of Finance and Taxation sitting as Commissioners of Appeal, and if their ruling be sustained we shall gain much in the future.

A systematic method of assessment has been prescribed for the assessors by the Board of Finance and Taxation, providing for a separate valuation of land and buildings and for other steps tending to secure satisfactory results.

The City Collector has proceeded to extremity in the collection of arrears of personal tax, and has, in some cases, through the officers of the law, seized and sold the goods of the delinquents, and thus dispelled the absurd notion that such arrears were not legally collectable, which had sprung up and which the disinclination of officers to perform their duty had fostered.

A committee of citizens to revise the tax assessments was appointed, but as only a subcommittee from one district ever made report I am unable to say what they accomplished. Their investigations will doubtless prove beneficial to the present assessors, and I trust they will co-operate with them. It will be noted that there has been a complete change in the personnel of the assessors, and an excellent opportunity is presented for a systematic, thorough and independent re-assessment of the entire city. This will be greatly aided by the excellent maps which have been completed during the present year.

Lastly, payment of taxes has been more prompt and cheerful, and there seems to be a disposition to take care of the future in this regard, trusting to some just arrangement to be made as to the past.

The Legislature passed a bill to provide for the appointment in cities, of Commissioners of adjustment, to examine into the situation as to taxes, &c., of all property on which there were taxes in arrear laid prior to 1880, and to settle on a just sum "to be now presently laid" as a lien in lieu of all taxes, assessments and water rents in arrears to date: this sum to be a lien on the fee simple of the property, which after reasonable delay, should be sold to satisfy the same.

The bill has not received the Governor's approval. It is thought that some who would otherwise have availed themselves of the privilege of paying tax arrears with interest at only seven per cent. per annum up to April 30th, as offered by the Board of Finance and Taxation, have allowed the limit to pass without doing so, in expectation that this bill would be approved, and therefore the Board has extended the limit to June 30th. However, those who advocated it (because of good results of a like law in Brooklyn) may regret that the bill referred to has failed to become a law: it is to be remarked that such a measure, if enacted at all, ought to be accompanied by a law for the just assessment and efficient collection of taxes hereafter imposed. We must guard against ever having to meet again this difficult problem of tax arrears. That taxes should be allowed to fall in arrear beyond a short limit is an anomaly, and shows either unjust assessment or a very inefficient government. The truth is that the general tax laws of the State are in a deplorable condition. To read those of many of the Western States is to put us to shame. So far as I could, I have urged and advocated reform in this respect, which seems to me to be the most pressing need of the times. The joint committee on taxation of the Legislature, reported a bill on the subject, but the session was too far advanced to permit its discussion. It is Assembly No. 377, and has been printed, and can be procured by those interested. The subject should be carefully considered during the next few months, and the whole question of taxation in this State, past and future, should be set at rest by the next Legislature.

STREETS AND SEWERS.

It was determined when the appropriations for the present fiscal year were made, that the streets and sewers should be cleaned by contract and the change was accordingly made, beginning, of course, December 1, 1884. As there has been much complaint about the condition of the streets since that time an explanation is needed for a proper understanding of the facts. Heretofore (except for a short time when the experiment proved a failure) the streets and sewers were cleaned by the Board of Works through laborers employed by day's wages. The appropriation was always inadequate, and the only part of the work which it was possible to do satisfactorily was the removing of ashes from dwellings and this was done well. The carts came very early in the morning and with regularity. To do this, however, used up so much of

the appropriation that there was little left for cleaning the streets and sewers. It was thought, for various reasons, that experienced contractors could do better with the whole work than the city's employees. Hence the change. The sewer contract was let separately, and I have heard no complaint as to its substantial performance. The cleaning of the streets, with the removal of ashes, &c., was let in one contract and taken by the same man who took the sewer contract, Mr. George F. Swift, of Brooklyn. He has recently received the Brooklyn contract for removal of ashes, &c., and is undoubtedly experienced in the business and should do good work. At the beginning there was considerable irregularity in coming for the ashes and equal irregularity in the setting out of ash barrels by the householders, and as the contractor was not called upon to collect daily, or at early morning (and to have required this would have greatly increased the expense of the work), our streets, fringed with rows of ash-barrels, standing out sometimes more than a day, were not very attractive. An additional difficulty arose from the fact that to save expense, the specifications required no street sweeping until March, on the idea that the ice and snow usual in this climate would render sweeping impracticable before that time. As it happened, the winter was very open for long periods, and it must be admitted that what with the ash barrels and what with the street filth, our citizens had a great strain on their patience. The matter caused those in authority great anxiety, and we were unjustly blamed for what we could not help, and when we were doing all we could to ameliorate the condition of things, when March came, snow and ice, more abundant then than earlier, prevented the doing of much more than to open the gutters, and so there was further delay. The work of sweeping is now being done with an approach to completeness, and while I cannot truthfully say that it might not, and ought not to be better done, it is quite plain that we shall have cleaner streets, and they will be oftener swept than under the old system. The ash barrels are now removed with regularity, and while we shall not be able to avoid the annoyance of their remaining out some hours (for the contractor must keep his men at work all day), householders can, by a little attention, reduce the annoyance very considerably. I think our people do not take enough pains to keep foreign matter out of the streets. The barrels should be only for ashes and garbage, and they should be large and sound barrels, not small boxes and pails overflowing and offensive. Under no circumstances should anything be thrown into the street. Our business streets are littered with paper to an extent that would surprise us, if we had not become accustomed to it. I strongly urge a revision or the ordinance on the subject of nuisances in our streets and public places, and I recommend a conference by your appropriate committee with the Chief of Police and Street Commissioner on this subject.

So far as the limited appropriation has permitted, defective pavements have been repaired. Grand street is now paved its entire length, except for a short distance at the curve where the street is broad and the inconvenience from the unpaved portion, small. This will be paved next year. Communipaw and Monticello avenues and Mercer street are now in process of repaving, or under contract, and in various places needed repairs have been made.

Some new street improvements have been ordered, but the Board of Finance and Taxation, as well as your Honorable body, has become chary in concurring in ordering these unless assurance is given that the assessments will be paid. Loud complaint has been made that new sewers are not constructed and outlets provided for some which empty in the meadows. I need not explain to your honorable body that no sewer can be built except on petition of the owners of property assessable therefor, and in most cases it is impossible to secure this petition. Take, for example, the sewer down Newark avenue from the hill. Many people think the Board or Public Works has only to say the word and a sewer to tide water or to a connecting sewer, could be built. So with the Fourth street sewer rendered useless by the filling in of Harsimus Cove. It is doubtful if the city has power (and it certainly has no money appropriated if it had power) to continue those sewers at its own expense, and the property owners will not petition to have it done at their expense. So there's the problem. I will say, however, that plans for the disposal of the flow from the Newark avenue sewer, which are thought to be feasible, are under consideration, and there is prospect of speedy relief to some extent as to the Fourth street sewer, by the voluntary action of the Pennsylvania Railroad Company. Some time ago that company built a sewer down Henderson street, to take the water from Fourth street to Second street sewer, but the Second street sewer itself, over the made-ground, has since became useless. I am informed by the late chairman of the Committee on Streets and Sewers of the Board of Public Works and also by the Chief Engineer, that the railroad company have undertaken to reconstruct that part of the Second street sewer, and if so we will be very greatly helped. I think, however, that we have a just right to demand that the Fourth street sewer should be opened to the river by those who shut it off. On its part the company says it filled in the cove by legislative authority, and while the right was reserved to the city to extend its sewers it cannot compel the company to bear the expense.

The broken sewer on Montgomery street from the hill is to be repaired at once. What the appropriation will permit in the way of reconstruction will be done.

STREET LIGHTING.

A change has been made in this branch of the public service by introducing in part of the Fourth District and elsewhere, the naptha gas lamps of the Globe Lighting Company, which are cheaper than gas but more expensive than the ordinary naptha lamps owned by the city. The contracts all provide for lighting every night, leaving it to the Police Board to make order as to moonlight evenings in its discretion—a much better arrangement than the former one for the city.

PUBLIC BUILDINGS AND WORKS.

An examination of the law authorizing a new City Hall under certain circumstances, satisfied me that the only way to make its provisions available was by appointing the Commissioners to select a site, &c., from the three Boards interested in the matter, viz: Aldermen, Finance and Works. I accordingly sent to your predecessors the names of a representative of each Board, viz: Mr. Abernethy, Mr. Hardenbergh and Mr. Lembeck. Those nominations have not been confirmed, and as two of the persons named are no longer connected with the city government I hereby withdraw the names of all. Should your Honorable Body desire me to send in names from the three Boards as at present constituted I will do so. Otherwise the matter must rest until you shall have decided to sell the present buildings and erect the new one. Then I must nominate a Commission, but till then I shall decline to do so except from representatives of the Board which must take the responsibility of the enterprise, and in my judgment have a right to know in advance what is to be done. By this plan the Commissioner will really be a conference committee of the three Boards, and this is in every way desirable.

Appropriations were made sufficient to thoroughly repair all the school buildings, and so far as the heating apparatus is concerned this has been done. The roofing is now being done by contract and the other work will be done in the coming vacation. A site has been purchased in Greenville and a new school building is about to be erected there.

A new fire bell tower has been erected in the Fourth District and various repairs have been made to the engine houses and other buildings of the Fire Department.

A contract has been awarded for an abutment at the end of Ocean avenue, on the Morris Canal

in Greenville, and as there is already an abutment on the Bayonne side, it is expected that a bridge will be placed there and direct communication to Bayonne through Avenue C will be provided

Additional horse car facilities were promised Lafayette, and your honorable body passed an ordinance permitting the use of certain streets for that purpose. I think you should insist on the immediate construction and operation of the new line, otherwise repeal the franchise.

The city, through the proper boards, has given the necessary bond to pay for its title to the tract of land under water in the South Cove, between Van Vorst and Henderson streets, ceded to it by the State in 1872. Immediate consideration should be given to the question of the development of this important property. This devolves upon the Board of Public Works, and I understand that that Board will give the matter their attention.

WATER SYSTEM.

Here we have had marked improvement but there is room for much more. Water rents are being more promptly collected and arrears enforced. Pipes are now extended by contract instead of day labor, to the advantage of the city in the matter of cost. The service to Bayonne has exceeded expectation, and it is in contemplation to make some arrangement with the contractor for settlement on a cash basis so that the city may get full control of the pipe. Arrangements are in progress for the supply of Harrison and Kearney, which will prove a source of revenue to us. The Cornish Engine at Belleville has been repaired at a less cost than the estimate, and the pumping apparatus there is in a better condition than for a long time. What we need is a revision of our scale of prices for water, a map of the distribution so that it can be told exactly where and how water is used, and a more thorough inspection and check upon the waste of water, which I fear is very considerable. As every gallon of water used adds to the cost of the pumping, consumption of fuel, etc., the strictest economy is requisite. I think our revenue from this source can be largely increased and I commend the subject to the careful consideration of the new Board of Public Works.

POLICE AND FIRE DEPARTMENTS.

These departments are both as efficiently managed as the limited appropriations will permit. The force in both departments is too small. Good discipline prevails, and the men have recently been put on a secure tenure by an act of the Legislature providing that there shall be no removals except for cause and after a trial. New hose has been purchased for the Fire Department during the current year, and slight but needed improvements have been made in the police stations, &c. A new city prison is much needed. The city hospital, under the care of the Police Department, has been in every respect creditable to the city.

EDUCATION.

I have already adverted to the condition of the school buildings. The schools are all overcrowded and the question of providing for ever growing population constantly presses upon us. The project for a free library, though defeated, because, under the provisions of the law, blank ballots counted against it, received so large a popular vote as to convince us that our citizens do not begrudge money spent for educational purposes. I think, therefore, we are justified in enlarging our school accommodations and facilities. A change has been made in the manner of selecting the Directors of Education, a statute authorizing the Mayor to appoint them having been accepted by the people at the late election. By this statute the Board of Education consists of one member from each district and one-at-large. I have appointed the board and they organized under the law on the first Monday in May, and are now in charge of the schools.

POOR.

The winter which has just passed has been severe and there has been much distress. There have been many sober and industrious men out of employment who have been forced for the first time to apply to the Overseer of the Poor for relief. I have consulted with him freely, and am satisfied that he has used sound discretion and good judgment, and yet he has been unable to give relief in many undoubtedly worthy cases, because of insufficient funds. I think the next appropriation should be larger than that of the present year.

SANITARY MATTERS.

In view of the prevalence of Asiatic Cholera in Europe, and the danger of its importation, a conference of those officials on whom responsibility rests in the premises was called last winter to consult with the Chairman of the State Board of Health. As a result of the conference the Mayor was requested to appoint a sanitary committe of citizens to co-operate with the authorities and to suggest measures of precaution and action when necessary. This was done and an organization effected. Subsequent meetings were not fully attended, and the good results expected from the movement have not been fully obtained. Much has been accomplished however, by a sub-committee who have had frequent meetings and laid out a course of action. Partly as a result of this and partly of its own volition, the Police Board acting as a Board of Health, has taken systematic action not only with regard to the possibility of cholera but also on the general subject of sanitary reform. A sanitary patrol has been organized from the police force, and a house to house inspection is in progress. The Health Inspector is active in abating nuisances called to his attention, and altogether there is more than usual care being given to all matters affecting the public health.

Citizens can aid by sending complaints of unsanitary conditions known to them to exist, to the Health Inspector at Police Headquarters, in the rear of the City Hall.

An act has been passed under which, in case of apprehended danger from an epidemic, the necessary funds for extraordinary expenditure can be immediately raised and supplied.

CHARTER REFORM.

In conclusion, I beg leave to present the result of some reflection upon the structure of our city government in the light of the official experience of the past year. I have carefully refrained hitherto from action, and even from expression of opinion, in this direction, because the changes contemplated would have thrown into my hands great powers which I was not chosen to exercise. That objection no longer exists, for before changes would now become operative my successor will have been elected. I have said, and say, that a defective form of government, in the hands of good men is better than the best form in the hands of bad men. In the last resort, our only hope of efficient public service is in the careful choice of our public servants. At the same time the form itself may be largely adapted to lead to the selection of good men, or precisely the reverse. The latter condition exists in this city. The powers of government are too widely distributed and the citizens cannot concentrate their energies in elections. Combinations are made between self-appointed representatives of the two great parties by which the election of a member to one public board is paid for by the election of a man of different politics to membership in another board. Such combinations must result in most cases in the election of officials likely to prove undesirable.

The scheme of the charter of 1871, whatever its defects, was at least scientific. It provided for a government which would have been strictly partizan, accordingly as one political party or the other controlled the Legislature, and that party would have had to bear the responsibility.

Now we have opportunities for the most dangerous of all bad governments; that by rings composed of members of opposing parties. Legislative commissions were destructive of local self government and have been justly condemned. But to compel the people to elect four or five distinct and separate boards and keep watch of them all, is reducing local self government to an absurdity. In a community like ours, where the citizens are so absorbed in business duties and which contains so many whose larger

interests are centered in another city, and who only have their dwelling place and social life with us our system almost of necessity turns the city government over to practical and professional politicians. Many excellent men are chosen every year in spite of this tendency. There have been, and are, such members in all the various Boards, and I am glad to say so and to acknowledge faithful public service, but the evil tendency is undeniable.

It should be known that there is strong reason to think that the Boards of Public Works, Fire and Police Commissioners in this city exist only by sufferance and without authority of law. In 1877 (P. L. page 54) the Legislature passed an act to abolish Legislative Commissions and to substitute therefore elected Boards. That this act was in conflict with the constitutional amendments of 1875 is indicated by the decision of the Supreme Court in the case of Van Riper vs. Parsons (11 Vroom, page 1.) There could be no effective judgment in that case for technical reasons. In anticipation of the decision of the court, the Legislature in 1878 (P. L. p. 28) passed a general law simply abolishing Legislative Commissions and providing nothing in their stead. On application to the court for leave to amend the proceedings in the case above cited, such leave was refused on the ground that the act of 1878 was undoubtedly good and therefore while to permit the suit to go on might oust the persons holding by election under the act of 1877, it would not reseat the old Commissioners and thereby chaos would result and vital powers of municipal government would exist with no one authorized to exercise them. Public policy forbade this.

Van Riper vs. Parsons, 11 Vroom, p. 123.

Since that decision the matter has rested and the people have gone on electing their Boards under a law which is probably unconstitutional.

It was supposed that the effect of this anomalous state of affairs would be to induce the Legislature to perform its plain constitutional duty of enacting a general law for the government of cities. A Commission on which sat our present Governor and Hon. Wm. J. Magie, now of the Supreme Court, prepared a draft of such a law, but it received no consideration by the Legislature. The matter cannot long continue in this unsettled state. A case may arise at any time, in which the court may not feel justified in refusing leave to attack the present constitution of these three Boards, and if they fall there is nothing provided by law to take their place. To add to the complication, an act has just been approved which establishes in all cities Boards of Police and Fire Commissioners to be appointed by the Mayor. A careful examination of this act satisfies me that the Boards to be organized under it would not take all the powers vested by our charter in the Commissioners, and the result would be simply to create two more municipal Boards. Other provisions of the act render it well nigh impossible for it to have effect in this city. I shall not make appointments under it; but its presence on the statute book adds to existing confusion.

We cannot escape the conclusion that some change in our local municipal law is needed and I have no doubt the people demand it. The issue on the next election of members of Assembly will be made on that point beyond question. It is generally thought that an act giving municipalities power by popular vote to accept changes in their local government is constitutional. The courts will probably pass upon that question before the next Legislature meets, and if the principle of such an act be sustained we will have no legal impediment to reform, and if not, we shall still need general legislation. What shall the change be? Without expressing opinion upon the general purpose of the bill laid by the Citizens Association before the last two Legislatures (except as hereinafter indicated), I have thought that it would be wise to consider whether instead of grafting such a law upon our present charter—already a mass of patchwork almost grotesque—it might not be better to frame a homogeneous charter entire and complete and ask the Legislature to give municipalities power to adopt it as a whole.

I satisfied myself early in the session of the last Legislature that the proposed charter amendments could not be passed, and therefore said nothing to the promoters of the bill of any changes that my observation of the practical working of the city government had suggested. I knew the agitation of the subject was useful and that the time for action would come later. I think it has now come, and that the present recess of the Legislature must be utilized and a fully digested plan presented early next session.

The scope of such a plan, I think, should be to secure greater simplicity. One board elected by the people, with general legislative powers, would probably be more efficient and more readily held to accountability than are the present separate, independent boards. All patronage should be severed from such a board and the execution of its resolutions should be committed to agents not selected by itself. The licensing of the sale of malt and spirituous liquors should not be in this board, but in a board or commission few in number, elected or appointed as might be thought wiser. There are reasons worthy of consideration for placing the water system, including sewerage and the fixing of grades, in a commission, but it is practicable to leave that matter with the general body if preferred.

There should be a power of estimate and apportionment of revenue vested somewhere apart from the general legislative board—I should say by the Mayor's appointment—but the other duties of our Board of Finance and Taxation could be performed by the general body.

Assessors are judicial officers and should be appointed by the Mayor, following the analogy of other judicial appointments in this State. There seems to be no reason for any other review (except through the courts) of the assessors' valuations than that of such a Board sitting together.

The educational board should be appointed by the Mayor.

For the rest, the tendency of the times is toward vesting all executive duties, including appointments to office, in the Mayor, and such a system is in harmony with that of the Federal Government, which has always been effective and generally satisfactory. A bad government can be overthrown with one blow when vested in a single individual, and heavy responsibility generally helps to secure faithful performance of duty.

These views are expressed in the hope of inviting general discussion among the people, so that if possible we may arrive at something like agreement among ourselves as to what is needed and for what we shall ask.

There is much to encourage in the past year's municipal history and not a little to discourage. We must not despond because all is not as we would have it. There are inherent difficulties that render it certain that good government is only to be secured by perpetual struggle. Vigilance and effort can never be relaxed.

On a survey of the whole field, I think our people may consider that progress has been made, and that the future looks hopeful.

I am, gentlemen, most respectfully yours,

GILBERT COLLINS, Mayor.

REPORTS OF STANDING COMMITTEES.

The Committee on Alms presented the following report, which was received and ordered to be entered in the minutes, on motion of Alderman Reardon:

Hon. Board of Aldermen:

Your Committee on Alms, appointed May 19, 1885, respectfully report that upon assuming this position, they met at the City Clerk's office for the purpose of ascertaining the present condition of affairs, and found that the appropriation for relief of out-door poor is exhausted The balance remaining of the appropriation to November 30th, 1885, the end of the present fiscal year, is $1,316 25. Claims presented March 24th, 1835, and unpaid, $717 95. Claims left at City Clerk's office up to May 25, 1885, inclusive, unpaid, $2,664 75, leaving a balance unprovided for of nearly $1,600. Besides claims yet to come for board of horse of Overseer of the Poor, and for burying the dead of the indigent poor, which will probably increase the amount to $2,000. Mr. Nichols, who served as Overseer of the Poor during the past year, explains to your committee that the appropriation was too small for the purpose; that the past winter was unusually long and tedious; that many persons applied for relief who never applied before, and that in the depth of winter over eleven hundred families were receiving relief, necessarily limited because of the small amount available. Your committee believe that this present condition is brought about by the giving of orders by members of the former committee, and others, without the knowledge of the Overseer of the Poor. Your committee do not favor this mode of business. The Overseer of the Poor should have full knowledge of expenditures, and closely watch and guard the city's interest at all times. The supervision of the committee over his work is necessary, and your committee will insist that the Overseer of the Poor shall follow their directions and advice. Your committee have notified Mr. Hewitt, the present Overseer, of the condition of the appropriation for this purpose, and that they will not sanction or allow, or audit or sign any claim whatsoever for relief of out-door poor unless ordered by a majority of the committee, and that no relief be granted until the beginning of the next fiscal year. Your committee deem it important to notify your honorable body of the existing state of affairs, and by giving the matter publicity, avoid the importunities of creditors who may demand payment of their claims. Your committee annex hereto a copy of the notice sent to Mr. Hewitt on the 23d inst.

Respectfully submitted,

DENNIS REARDON.
WILLIAM J McALVANAH.
Committee on Alms.

Jersey City, May 26, 1885

The following is a copy of the notice attached to said report:

CITY CLERK'S OFFICE,
JERSEY CITY, May 22, 1885.

John E. Hewitt, Esq., Overseer of the Poor:

The undersigned Committee on Alms, of the Board of Aldermen of Jersey City, do hereby notify you that the appropriation for relief of out-door poor is exhausted. The balance remaining to November 30, 1885, is $1,816 25. Claims in City Clerk's office not yet officially presented amount to $3 365 40. As will be seen, a deficiency will exist at the end of the present fiscal year of probably $2,000 or more. Under no circumstances will the undersigned sanction, or allow, or audit, or sign, any claim whatsoever for relief of out-door poor unless ordered by a majority of the committee. The deficiency herein shown ought not to exist, and the fact that it does exist shows clearly a want of confidence between officials which will be no longer tolerated. Many of the claims cannot be paid out of the existing appropriation, and no provision other than by suit can now be used or resorted to by claimants to satisfy their demands. We propose to stop all supplies until the next appropriation, and then keep within the amount, no matter what it may be. Coming into the Board of Aldermen May 5th, 1885, and being appointed members of this committee May 19, 1885, we entered upon our duties with the expectation that money sufficient for the purpose would be found to the credit of the appropriation, but find this large deficiency. We assume the responsibility of our positions, but do not assume the responsibility of this large deficiency, hence our present action, which we believe will be cheerfully acquiesced in by you.

Yours respectfully,

DENNIS REARDON,
WILLIAM J. McALVANAH.
Committee on Alms.

The Committee on Excise presented a report signed by Aldermen Davis and Reardon, a majority of the committee, recommending the adoption of the following resolution on applications heretofore referred:

Resolved, That licenses be granted to the following named to keep restaurants at the following named places in Jersey City:

First District—Frank McCarty 123 York street, Norton & Kealy 129 Essex street, James Mailly 49 Sussex street, Wm. T. Harris 4 Gregory street, Darcy & McCarthy 28 Newark avenue, Wm. A. Gray 271 Washington street.

Alderman Cator, from the same committee, presented a minority report, of which the following is a copy:

To the Honorable the Board of Aldermen of Jersey City:

The undersigned, a minority of the Committee on Excise, respectfully reports that he has not agreed with the majority of said committee to recommend the granting of the licenses mentioned in the majority report. The laws of the State of New Jersey make the sale of liquors as a beverage in a public saloon a criminal offence, unless the party accused can exhibit a license. The business is of that dangerous character to the community and so increases insanity, pauperism and crime, that the State has, by almost unanimous consent of the people, declared it a crime to engage in the business without a license. It is evident that the character of the business is in no way changed by the license, which is a mere piece of paper. If the business is a crime without a license, it is a crime with a license, and the license is nothing more or less than a license for a crime. We do not deal with any other State evil this way. We refuse to license gambling houses, lotteries, obscene literature, opium joints, prostitution and other evils. This Board is only authorized to issue licenses to hotels and saloons to sell liquors, when it is required for the public good. That which the law denounces as a crime cannot be for the public good; it is only for evil continually. My oath of office, in my opinion, would be violated if I were to certify that these licenses are for the public good, which any Alderman does who votes to grant them. I therefore recommend that all these applications be denied. Yours &c.,

N. J., May 26, 1885. THOMAS V. CATOR.

Alderman Cator moved, "That the minority report be substituted for the majority report."

OFFICERS' COMMUNICATIONS.

The following communication was presented from his Honor the Mayor:

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
Jersey City, July 28, 1885.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—I take occasion to formally announce to your Honorable body, as the popular branch of the city government, the death of Ulysses S. Grant, twice President of the United States, and at the time of his death General (on the retired list) of the United States Army. His distinguished services and admirable character call for some suitable testimonial from his fellow citizens of their sense of their bereavement. During his later life he was for a considerable part of each year a resident of this State, and it was in our own city that his vener-

able mother passed her declining years, and but recently went to her rest

I think there should be some official recognition of the sad event which the Nation now mourns, and a participation in the obsequies of the departed soldier and statesman whose memory will be held in perpetual honor.

At a meeting of citizens, over which the Mayor was asked to preside, held last evening, a committee of twelve was appointed to arrange for a public mass meeting at an early day, to give expression to the popular feeling so evidently existing on the subject.

I beg leave to suggest that a conference be had by your Honorable body with the Committee, to the end that their movement, if approved by you may have the benefit of official recognition.

Very respectfully,
GILBERT COLLINS,
Mayor.

The communication was received and the following preamble and resolution in relation thereto was offered by Alderman Reardon and unanimously adopted:

Ulysses S. Grant is dead, attaining every honor in the gift of his fellow citizens, loved and respected by all, he has passed away, and it is proper as representatives of the people that we should in some measure express our sentiments in common with other corporate authorities.

History has already recorded his deeds as a soldier, statesman and citizen, tenacious of purpose, he surmounted obstacles thought to be impregnable, and having secured peace, inspired with a heroic, magnanimous purpose, he bid his fellow men to turn their thoughts, their strength, their all to the care of their long suffering families by the tilling of the soil they had so bravely defended

Bravest among the brave, he has long fought the grim conqueror, lovingly cared for by a devoted wife and fond children he has given to us an example of fortitude and patience in the midst of terrible suffering seldom seen among men.

Resolved, That in common with the people of this broad land of ours, we regret his death, we mourn his loss, we express our deepest sympathy with those he held most dear on earth, yet at the same time we are proud to own one so honest, so good of heart, so thoroughly intensely American in all things.

Resolved, That a special committee of three be appointed to meet with the citizens, already selected, to represent this Board in such proceedings as may be deemed necessary, and that the President of this Board be added to the committee.

Aldermen Reardon, Cator and Elliott were appointed the committee.

A report from William Brinkerhoff, Esq., attorney for the city in certain causes, that the suit of Hugh F. McDermott vs. the city, to recover $8,750 with interest for printing the minutes of the different municipal Boards of Jersey City in the Jersey City Herald, and the suit of the state, the Pennsylvania Railroad Company prosecutors, vs. the city, on certiorari to remove ordinance prohibiting obstruction of street crossing, &c., have been decided in favor of the city, the Court of Errors and Appeals having affirmed the decision of the Supreme Court in said causes at its present term, was presented, received and ordered filed.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from his Honor the Mayor filed in the City Clerk's office August 8, 1885, and the same was read, received, ordered entered on the minutes, and subsequently in "miscellaneous business," on motion of Alderman O'Roourke, the message was ordered to be printed on slips for the use of the Board:

EXECUTIVE DEPARTMENT, MAYOR'S OFFICE,
CITY HALL, JERSEY CITY, Aug. 6, 1885.

To the Honorable the Board of Aldermen of Jersey City:

GENTLEMEN—I return without my approval the ordinance passed by you on the 29th ultimo, entitled "An ordinance to regulate the use of streets by cars."

It is beyond our power to adopt so sweeping an ordinance and it would immediately be set aside by the courts on certiorari. It provides: Section 1. That it shall not be lawful to use the tracks of any horse railroad company now laid or hereafter to be laid for the use or transportation of any car or vehicle not used exclusively for the transportat on of passengers in Jersey City. Literally construed such an ordinance would prohibit not only the use by the horse car companies of their snow ploughs and sprinkling machines, but would prevent the drawing of wagons upon the tracks. There is, however, a deeper objection than the mere words used.

At least one of our horse car lines—the Jersey City and Bergen Railroad Company—has the right by its charter to carry freight, and the city cannot take that right away by ordinance.

Further, It is not legally possible to restrain the use of car tracks in public streets. If it is lawful for a car or vehicle to be in the street at all, it is lawful for it to be in any part of the roadway so far as the city is concerned.

A horse car company could, of course, restrain the use of its tracks by a rival line, but that would have to be done through the courts.

By the charter your honorable body has the right to regulate the use of streets and public places by foot passengers, vehicles "railways and engines," and I suppose it is lawful for you to prohibit the drawing of freight cars through the streets, subject, of course, to vested rights which ought to be examined before you take action.

As I suppose it was such an ordinance as that which you intended to pass, and may probably now consider the propriety of passing. I will add that while the ordinance herewith returned was before me I was waited upon by the Superintendent of the New York Division of the Pennsylvania Railroad Company, the President of the Jersey City and Bergen Railroad Company and representatives of the three great steamer lines which have their piers south of Montgomery street I am satisfied that the business of these steamer lines can only be properly conducted by having the freight cars drawn to their piers, and that unless they can have that privilege they will not remain with us. The commercial advantages to this city of having the lines here are so great that it seems to me evident that all reasonable privileges should be extended especially as our ordinances already permit (and the proposed ordinance did not restrict) the drawing of freight cars through Hudson and Essex streets to Washington street and through spurs, down Grand and Sussex streets. The recent removal to this city of the Inman Line of steamers renders an additional spur down York street from Hudson street necessary The Inman Line taking the Grand street pier and the Netherlands Line changing to the York street pier. These gentlemen informed me that they had applied some months ago for permission to lay a curve from Hudson street eastward into York street, and so to run down to that pier, but that as the ordinance did not progress, they had been compelled temporarily (with the permission of the Horse Car Company and by replacing the existing curve westward from Hudson street to York street with a heavier rail) to draw their cars westward into York street, and then detach the horses and draw their cars down on their pier. I told them that it was precisely this action which I thought had caused the passage of the ordinance then before me, as your Honorable body doubtless thought such a practice would delay the horse car travel and seriously incommode our citizens. They replied that it was absolutely essential for the steamship company to have some way of receiving their freight in cars at once, and as the Aldermen had not passed the ordinance affording the more convenient method they had been obliged to resort to the one adopted, which they had been advised was entirely lawful. I reminded them that they had made no application to the present Board for the desired ordinance, and said that from casual conversations with some of your members I thought that if they did apply, the privilege would be granted. They said that no disrespect had been intended, but that they had assumed that the ordinance was regularly before the

existing Board, and had supposed they would be notified when the Board desired to consider it.

I suggest that your Honorable body, through the proper committee, have a conference with these gentlemen, and dispose one way or the other of that pending ordinance.

Yours, respectfully,
GILBERT COLLINS, Mayor.

OFFICERS' COMMUNICATIONS.

An opinion was presented from the Corporation Counsel in answer to resolution of October 27, 1885, inquiring the course to be pursued in taking care of the poor when the fund appropriated for that purpose is exhausted and the power of the Overseer of the Poor in the premises, setting forth that the fund appropriated by the Board of Finance and Taxation for the present year being exhausted the power of that Board to afford further relief is at an end, &c., that the only means for relieving the poor whe e the fund for that purpose is exhausted, is that indicated by the "Act for the settlement of the poor," which directs that when any poor person shall apply for relief to the Overseer of the Poor where such poor person may reside, the Overseer shall make application to a Justice of the Peace who shall make such allowance as the necessities of the person may require and without such order the Overseer shall forfeit all relief given by him and shall have no allowance made him in passing his accounts, &c., that if indebtedness has been incurred in taking care of the poor through the Overseer outside of the manner indicated by the statute he does not see how the same can be a legal charge against the city, nor how the same can be discharged save by an enabling act of the Legislature.

The opinion was received and referred to the Committee on Alms.

An opinion was presented from the Corporation Counsel in answer to resolution of October 13, 1885, inquiring by what authority and under what law the Pennsylvania Railroad Company has laid and now maintain a track of iron rails in Steuben street, east of Washington street, setting forth that he should have answered earlier but for some information which could be obtained only by an examination of the public records, that prior to the year 1869 the Pennsylvania Railroad Company (the United Railroads of New Jersey) either owned or controlled the shore front east of Greene street and in front of the easterly end of Steuben street, that the water then came to the middle of Greene street, that in the year 1869 the Legislature for a consideration of $20,000 to be paid before July 1, 1869, and which was so paid, granted to the corporations composing "The United New Jersey Railroad and Canal Companies" the right to reclaim and erect wharves and other improvements in front of any lands then owned or held in trust for them or either of them, &c., on any tide water of the State, and when so reclaimed and improved to have, hold, possess and enjoy the same as owners thereof, that by virtue of this act the United New Jersey Railroad and Canal Companies, or their lessee, the Pennsylvania Railroad Company, filled in and reclaimed the premises over which Steuben street would pass or does pass, extending eastwardly from Greene street, and as the owners thereof, under said act, have laid their iron tracks over it, and have devoted it to their own purposes, that the right to do so is one which this Railroad Company has always asserted and the city always denied that the power of the Railroad Company to make use of the property so acquired as absolute owner against everybody, including cities, is one which has not gone unchallenged in this State, &c., that suits on this question have been decided in the Court of Errors of New Jersey, and "that the connection of the street with navigable waters will be continued over lands reclaimed by filling in under legislative permission and that the streets by operation of law extended to the new water front obtained by filling in," is the established doctrine of the Courts of New Jersey, &c., that suits covering the question have been taken to and are now pending before the Supreme Court of the United States, that the decision of that court will be final and will settle beyond appeal this much litigated and very important question.

The opinion was received and ordered filed.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor filed in the City Clerks office on the 12th inst., and the same was read, received and ordered to be entered in the minutes.

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
Jersey City, Dec 12, 1885.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—I return herewith without my approval the ordinance passed by you on November 24, 1885, presented to me December 3, 1885, entitled "an ordinance to authorize the Star Line Horse Railroad Company to lay tracks and run cars thereon in the city of Jersey City, following are my objections to said ordinance:

First, Illegality. The question involved is peculiar and has never before arisen in this city to my knowledge.

Heretofore permission to lay tracks in our streets has only been granted to corporations having special charters from the Legislature, expressly granting the power to lay tracks on obtaining consent of the municipal authorities, and granting the right to take tolls, the respective charters of these corporations contained the restrictions which the Legislature saw fit to require, and the municipality could add others, the case now presented is that of a company, formed under the general corporation act, applying to the municipal authorities direct for their grant, passing the grave question whether a street railroad company can be organized under that act. We are met by the well settled law, adjudged by many courts that there must be legislative authority to construct and operate a street railroad. This authority may indeed be delegated by the legislature to a municipal corporation, but the Supreme Court of this State has decided (7th Vroom p. 79) that the general power to regulate streets contained in city charters does not authorize a city to grant a license to lay a railroad track in a public street; and even if the power over streets given by Jersey City's charter be sufficient to warrant granting permission to lay railroad tracks therein, I think no power is given to grant such a franchise as is necessarily implied in this ordinance, namely: the exclusive right to the tracks laid under it, and the right to take tolls. To this effect was the opinion of eminent Judges and the New York Court of Appeals in a case reported in 14th N. Y., p. 506.

Second—Absence of proper conditions and restrictions.

As most of these are generally imposed by the legislative grant—i. e., the charter of the company seeking the municipal consent—we do not usually find them in ordinances granting consent to lay tracks in city streets. Hence it is not strange that they have been overlooked in framing the one before us. But it is evident that in a case where there is no charter, all conditions and restrictions must be in the ordinance. I will enumerate some which I think essential. Most of them have always been insisted on, either in the legislative or municipal grant in like cases, and none of them in my judgment can safely be dispensed with. There has been an attempt to impose some restrictions in this ordinance, but the language is indefinite and ambiguous, and the most important of all are entirely lacking.

There should be conditions and restrictions.

1. Imposing the duties and liabilities of common carriers.

2. Limiting the rates of tolls and fares.

3. Limiting the kind of motive power to be used.

4. Regulating the form of rails and manner of laying them.

5. Requiring the reconstruction of a street broken up for the track.

6. Requiring the paving and repair of some portion at least of the street.

7. Subjecting the construction and repair of the track to the supervision of some competent city authority.

8. Preventing the obstruction of public travel.

9. Guarding the city's rights in sewers, water pipes and other public improvements existing or to be constructed.

10. Providing for penalties or remedies for the misuser or non-user of the privileges granted.

11. Subjecting the ordinance to modification, alteration or repeal.

I notice in Section 3 the right of transportation of goods as well as passengers is indirectly given. I call attention to this as a probable inadvertance, in view of your recently declared purpose to prevent any further extension of the use of street railroads for any other transportation than that of passengers.

Third—Unwise excess in the privilege granted. This ordinance permits the laying of tracks in about twenty miles of streets, some of them having no possible connection with any reasonable railroad route that I can locate. I have had prepared by the Chief Engineer, and herewith present a map which well illustrates this objection. In many of these streets there can be no need for a horse railroad for many years to come, and it is time enough to grant the privilege when need arises. In some streets I should be unwilling to consent that a horse railroad should be laid at all. In other streets there are already double track roads. It is true that it is possible to lay new tracks so as to overlap the old, but to do so greatly impedes public travel. The practice is objectionable, and should never be permitted except where there is an exigency requiring it.

I submit herewith a remonstrance against the ordinance, presented to me by a number of our heaviest tax payers and real estate owners, which well merits your consideration.

Respectfully yours,
GILBERT COLLINS, Mayor.

Accompanying said message was a remonstrance of Charles Siedler and others and map showing proposed route.

A communication from the Mayor, calling attention to the fact that the new street cleaning contract has been awarded upon a specification providing for separate removal of kitchen swill, &c., which will necessitate some amendment to existing ordinances, so that citizens will be required to separate the swill from ashes, was presented, received and referred to the Committee on Streets.

Whereas, The city charter authorizes the Board of Police Commissioners to license exhibitions showing the agility of man or beast, and

Whereas, A sparring exhibition recently held in a skating rink in this city was presumably allowed by the police authorities on the ground that it was designed to show agility of man, and

Whereas, Said exhibition was, so public rumor declare, attended by very many of those who in their own opinion are the first citizens of this and neighboring cities,

Resolved, That in the opinion of this Board these so-called sparring exhibitions are a disgrace to any civilized community, and a curse to any city tolerating them.

Whereas, The acceptance of any office in the gift of the Board of Finance and Taxation by any member of this Board under the circumstances would be a corroboration of such charges aside from the fact that such practices tend to demoralize all attempts at good government and should be expressly prohibited by law, now therefore,

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, March 22, 1886.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—I return without my approval the resolution passed at your last meeting granting permission to remove a building from No. 477 First street to Newark avenue, near Waldo avenue, the removal not to occupy more than five days. My objections to the resolution is that to occupy such a street as Newark avenue by moving a building therein for a long distance will impede public travel more than I think should be permitted,

Yours respectfully,
GILBERT COLLINS,
Mayor.

EXECUTIVE DEP'T. MAYOR'S OFFICE, CITY HALL,
Jersey City, March 22, 1886.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—I return without my approval, your ordinance passed March 9, 1886, partially prohibiting the use of barbed wire in the construction of fences. My objection to the ordinance is that I do not find in the charter power given to pass such an ordinance.

I think relief against the undoubted evil which the ordinance seeks to remedy, can only be had by an act of the Legislature.

Yours respectfully,
GILBERT COLLINS,
Mayor.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor, filed in the City Clerk's office on the 3d inst., and the same was read, received and ordered to be entered in the minutes;

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, April 3, 1886.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—I herewith return, without my approval, the resolution passed at your last meeting for the purchase of 500 loads of loam for Hamilton Park. My objection to it is that in my opinion it is better to decide upon an entire plan for the improvement of the park to the extent that the appropriation will permit, and then do everything at once. I notice that subsequent to the passage of the resolution your Board resolved to consult the wishes of the residents about the park as to its improvement, and it seems to me wise to await the result of that consultation before taking any action.

Very respectfully,
GILBERT COLLINS,
Mayor.

The City Clerk laid before the Board the following communication from the Mayor, filed in the City Clerk's office on the 1st inst.:

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, April 1, 1886.

To the Honorable the Board of Aldermen of Jersey City;

Gentlemen—I herewith return without my approval the resolution passed at your last meeting whereby you propose to submit to popular vote the act of May 2, 1885, providing for the establishment in the cities of this State which shall accept the provisions of the act, of a Board of Fire Commissioners and a Board of Police Commissioners, to be appointed on the nomination of the Mayor with the advice and consent of the Common Council.

When the bill which resulted in this act was presented to the Legislature it did not contain a provision for its submission to popular vote, and therefore when I learned, as I was about to prepare my last annual message, that the bill had become a law I supposed that it was immediately in force, and that if applicable to this city I would have to take action under it. I procured a copy of the bill and studied its provisions. I then came to the conclusion expressed in that portion of the annual message to your honorable body in which I discussed the need of charter reform in the following words:

"To add to the complication an act has just been approved which establishes in all cities Boards of Police and Fire Commissioners to be appointed by the Mayor. A careful examination of this act satisfies me that the Boards to be organized under it would not take all the powers vested by our charter in the Commissioners and the result would be simply to create two more municipal boards. Other provisions of the act render it well nigh impossible for it to have effect in this city. I shall not make appointments under it but its presence in the statute books adds to existing confusion."

I have now by reason of your resolution given this statute renewed examination and am confirmed in my former conclusion. The act was evidently drawn to fit the circumstances of the city of Newark, the only governing body mentioned either in terms or by general language is the "Common Council." And it would be a stretch of language to consider this as meaning our Board of Aldermen. The act provides that the appropriation for the fire and police departments is to be made by the "Common Council" in the month of January in each year, appropriations in this city for all the departments, as is well known, are made in July by the Board of Finance and Taxation. The act provides that the salaries of the fire or police departments are to be paid by warrants of the "Common Council." There is no fund for the present fiscal year at least out of which such payments can be ordered. There are other minor details which show that the act cannot be made to fit our city, but the foregoing I deem to be conclusive.

An equally grave objection to this act becoming operative in our city (if, by any construction, it can be held to be applicable to all) exists in the fact that it makes no provision for the abolition of the present Boards, and the result of its adoption here would be to create, in addition to the six municipal boards already existing, two others, each composed of four members, who, under the act, might draw a salary of $2,000 each per annum. The act does not provide that all the powers now exercised by the existing board shall devolve on the new boards, but simply that there shall be in each city accepting it a Board of Fire Commissioners and a Board of Police Commissioners, to whom respectively shall be entrusted the government, control and management of the Fire and Police Departments therein and the direction and control of all public fire and police matters respectively, subject to the inspection and supervision of the Common Council of such city, &c.," it is evident that this language does not include the extensive powers given to our Board of Police Commissioners over the city prisons, hospitals and almshouses, and the Health Department and the equally important subject of the lighting of the streets; nor the power given to our Board of Fire Commissioners to regulate the construction of buildings, &c., and the manufacture and storing of combustible material, and the removal or demolition of unsafe buildings, &c. It is plain, therefore, that these powors, which it is imperative should be exercised by some lawful authority, would remain in the present boards. By reason of the foregoing objections, I must decline to give my approval to your resolution.

Yours respectfully,
GILBERT COLLINS, Mayor.
